INSTALLATION AND OPERATION INSTRUCTIONS

HARTING CONNECTORS AND CABLES

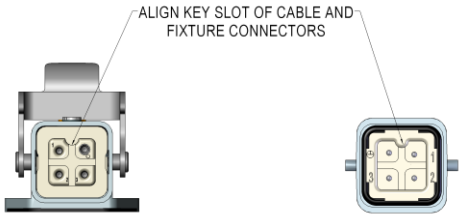
IMPORTANT SAFEGUARDS
READ AND FOLLOW ALL SAFETY INSTRUCTIONS
BEFORE INSTALLING CONNECTORS

- This fixture should be installed by qualified technicians in strict accordance with the National Electrical Code and any local requirements.
  NOTE: For cord and plug applications, the fixture must be mounted directly below the outlet/busway.
- To prevent risk of electrical shock deactivate/disconnect the power supply before installing or servicing fixture.
- To maximize longevity of the fixture, do not mount near heat sources.
- The use of accessory equipment not recommended by the manufacturer may cause an unsafe condition and/or void warranty.
- This fixture is designed for general lighting purposes. Do not use fixture for other than intended use.

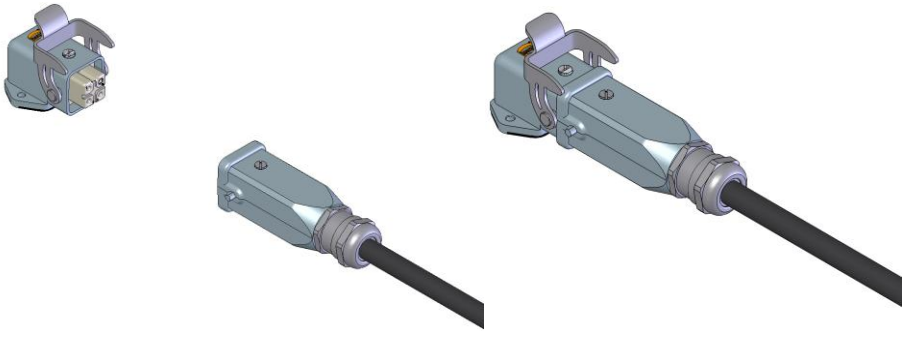
SAVE THESE INSTRUCTIONS

INSTALLATION

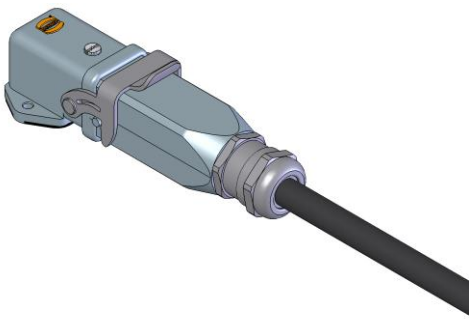
1. **BEFORE INSTALLING, MAKE SURE THAT THE CIRCUIT IS DEACTIVATED.**
2. Ensure the Fixture has been properly mounted/installed
3. Align fixture connector and cable connector key and key slot



4. Plug in cable to connector with everything aligned



5. Snap shut securement latch



OPERATIONAL DATA

Operate attached fixture at its rated voltage. NOTE: REFER TO FIXTURE SPEC SHEETS FOR RATED VOLTAGE.

MAINTENANCE DATA

Although no routine maintenance is required to keep connectors and fixtures functional, it should be checked periodically to ensure that it is functioning properly and to inspect for external damage.

For optimum performance and longevity:

- Keep fixture and connectors free of debris and sediment build up.
- Inspect cable regularly to ensure cable is not pinched and cable insulation is in good condition.
